### Integrated Health Care Services

**Programs with integrated health care services achieve the strongest results. Strategies for creating integrated care systems include:**

- Educating and supporting providers on national guidelines
- Using data to drive clinical improvement
- Promoting strong provider-patient relationships
- Facilitating communication across team

**The AH! Program: *What We Believe In***  
**Our Philosophy: *Knowledge is Power***

➤ **4 Key components:**  
 1) Public policy 2) Public Awareness 3) Outreach 4) Education

➤ **We have become essential to the delivery of quality asthma care in our community:**

- Involve and become involved in the work of physicians, hospitals, schools, community, regional and state organizations
- Assess and prioritize community needs for asthma care and the patient/family's perceived needs around education and self-management
- Plan program based on community feedback, guidelines, research, and expert opinion
- Continuous quality improvement

**Our Integrated Health Care Services:**  
*Knowledge is Power*

➤ **For Patient's and Families One:One**

- Prepare patients so they are active partners and advocates; emphasize the family's role in supporting the patient's well being and illness
  - Deliver consistent, focused messages about healthy lifestyles
  - Address environmental/economic issues and access supporting services
  - Assess readiness to change & self-efficacy, and provide advice for behavior change consistent with patient / family's readiness to change
  - Use collaborative approach to setting goals
  - Promote self-management skills

➤ **We ask for and use feedback**

## Improving Asthma Care for Patients in the Pediatric Clinic

Barbara Chilmoneczky, MD, Rhonda Vosmus, RRT, AE-C, Jodie Widor, RN, AE-C, Kathryn Engel, Paula Gilbert, and Victoria Rogers, MD

**Introduction**

ACT (Asthma Care Team) was developed to improve asthma care for patients in the Pediatric Clinic. The team consists of a physician, a respiratory therapist, a nurse, and a pharmacist. The team's goal is to provide comprehensive asthma care to patients, including education, medication management, and monitoring. The team has been successful in improving patient outcomes and satisfaction.

**Goals / Changes**

Goals:

- 1. Increase collaboration between ACT, the Pediatric Clinic, and the Pediatric Clinic Care Team.
- 2. Increase documentation of quality care in both the Clinical Improvement Registry (CIR) and Legistar (CIR).
- 3. Increase awareness of pediatric residents about the health care of their own patients.

Strengths/Best results:

- 1. Increase of 14 patients involving well management, including from a Certified Asthma Educator (CAE).
- 2. 100% Asthma Quality of Life measure (Asthma Control Test (ACT)) in patients 1 year old.
- 3. 100% of patients reported that their condition with their asthma improved.

**Changes:**

- 1. The ACT team was created and assigned to the Pediatric Clinic.
- 2. The ACT team was trained in the use of the CIR and Legistar.
- 3. The ACT team was trained in the use of the CIR and Legistar.
- 4. The ACT team was trained in the use of the CIR and Legistar.

**Outcomes 2005-06-2007-08**

**Comparison of Quality Metrics 2006-2008**

Metric	2006	2007	2008
Influenza vaccination	14%	58%	60%
Visits to the Asthma Educator	18%	83%	83%
Written School Plan documentation	27%	43%	57%
Appropriate Asthma Classification	57%	57%	57%
ACT utilization	22%	22%	22%
Patient satisfaction survey	90%	90%	90%
A Nurse Educator in the clinic	Yes	Yes	Yes

**Summary / Conclusion**

The ACT team has been successful in improving asthma care for patients in the Pediatric Clinic. The team has been successful in increasing patient satisfaction, improving patient outcomes, and increasing documentation of quality care. The team has also been successful in increasing awareness of pediatric residents about the health care of their own patients.

## Our Integrated Health Care Services: How We Make It Work

- Automatic referral process-#'
- Partnering with tobacco cessation and obesity programs
- Using registry data to motivate providers and to drive continuous improvement-pilot sites, QI resident project
- Annual report to administrative and opinion leaders highlighting successes, how much it costs (little), how much it saves, and how our work can improve provider efficiency
- Provide summary reports to providers

NATIONAL ASTHMA FORUM

Communities in Action for Asthma-Friendly Environments

---

---

---

---

---

---

---

---

---

---

---

---

### Our Impact

- **Key indicators for measuring success:**
  - Decreased healthcare utilization, ED and Hospital
  - Decreased missed days from work and school
  - Increased number of patients with persistent disease on controller medications
  - Increased # of asthma plans written
  - Increased referrals for asthma self management education
  - Improved care and quality measures for providers
  - Increased outreach opportunities
  - Positive patient satisfaction surveys

---

---

---

---

---

---

---

---

---

---

### Our Impact

- **The results we're most proud of:**
  - After integrating asthma education awareness we saw a reduction in ER visits from 22% to 5% and hospitalizations from 24% to 0% at 6 months post intervention
  - This resulted in health care cost savings of \$473,105

---

---

---

---

---

---

---

---

---

---

#### Process & Outcome Measures Baseline & 6 Months AH! Asthma Pediatric, Cohort 8 (Total N=193)

Measure	Baseline	6 Month
Responded at follow-up (%)		130 (67.3%)
Controller medication for persistent asthma	115 (76.7%)	78 (62.9%)
ED Visit	43 (22.2%)	6 (4.6%)
Hospital stay	46(23.8%)	0 (0.0%)
Patient/caregiver missed school/work	78 (49.4%)	12 (9.8%)

---

---

---

---

---

## Sharing Our Value—Sustaining Our Success

- **We demonstrate our value by:**
  - Sharing our data – keeping our stakeholders informed
  - Patient satisfaction surveys
  - Reduced overall health care utilization
  - AARC Certification
- **Our number of patients seen has grown by 30%**
- **We help to fund that growth by:**
  - Hospitals and collaborators
  - 3<sup>rd</sup> party payer receipts
  - Grants

## Urban Health Plan

### *Who We Are*

- Federally Qualified Community Health Center
- Joint Commission accredited
- Founded in 1974 by local physician
- Largest employer in our zip code
- 2008 served; 31,000 patients through 171,000 visits
- **Key Partners:** NYCDOHMH , Affinity Health Plan, and Bureau of Primary Health Care's Health Disparities Collaborative

---

---

---

---

---

---

---

---

## Urban Health Plan *What We Believe In*

### Our Philosophy:

*Using Outcomes Data to Promote Change*

➤ **Why we are essential to the delivery of quality asthma care in our community:**

- 27% of children in the South Bronx have asthma
- Urban Health Plan is the largest provider of health care in the community and has a responsibility to improve outcomes for our patient population with asthma

## Our Integrated Health Care Services: *Using Outcomes Data to Promote Change*

- **Apply Chronic Care Model**
- **Infrastructure supports spread of data-driven interventions:**
  - Provider Champion Monitors Program Outcomes & Provides Continuous Training and Reinforcement
  - Evidence Based Guidelines are Embedded in the Electronic Health Record
  - Monthly Outcomes Data Shared with Providers
  - Asthma Educators at Point of Care
  - Asthma Educator Tool Kit is continuously updated & used

## Sharing Our Value—Sustaining Our Success

- **We demonstrate our value by:**
  - Sustaining our outcomes
  - Staying current with National Guidelines
  - Sharing what we know inside and outside of UHP
- **Our asthma program has grown from 2,100 patients to 6,095 patients**
- **We help to fund that growth by word of mouth**
  - Our patient volume grew by 190% over the past 7 years
  - Partnership with Affinity and other HMOs
