

# Small Group Discussion Topics

**Topic 1:** What state-level policy changes and opportunities exist within the next 3-6 months and within the next year to move California toward expanded reimbursement for in-home asthma interventions?

**Topic 2:** What local-level program implementation opportunities and policy actions exist within the next 3-6 months and within the next year to move California communities toward sustainable financing for in-home asthma invention?

**Topic 3:** What actions will develop the infrastructure critical to supporting in-home asthma interventions and connecting policy with practice?
