Goals

Emphasize patient self-management

Improve quality of continuity of care

Improve quality of life

Decrease morbidity, mortality and related health care costs associated with asthma and COPD

Ongoing Objective

Continue to improve awareness and recognition of the role of a certified respiratory educator

To build on our existing strengths

To educate the leaders of our children and patients with chronic lung conditions

Videos for Health Care Professionals

RESP/Trec[®] is pleased to offer RESP Videos[®] as a method for Respiratory Educators to continue learning. RESP Videos provides presentations on current issues in respiratory health, focusing on advances in the management of chronic respiratory disease. These presentations are conducted by leading experts in respiratory health. New presentations are added throughout the year.

Subscription to RESP Videos allows you to:

1. View a video
2. Take the quiz for the video you watched
3. View and print your certificate which can be used for professional development

Find out more about [how you can subscribe](#).

Announcement

THE  LUNG ASSOCIATION™
When you can't breathe, nothing else matters.

SpiroTrec

Development of New Module

Goal

To improve diagnosis and management of chronic respiratory diseases by increasing access to quality spirometry.

Objective

To develop a training course to teach individuals how to conduct spirometry including knowledge of spirometers, understanding of the ATS/ERS standards for spirometry, quality control, patient instruction and basic interpretation of the results.

THE  LUNG ASSOCIATION™
When you can't breathe, nothing else matters.
