What is your personal passion for controlling asthma in your community?

# Questions to Run On

What kind of day will we have?

What is working in successful programs to control asthma?

What can each of us do to learn from, adapt and apply these lessons to our own work?

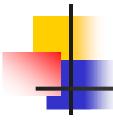

## Workshop Overview

- Experience a Proven and Successful Framework and System for Asthma Control
- Witness Faculty Programs Living these Strategies
- Discover Dynamic New Ways to Network with Peers
  - Breakout sessions
  - Open space
- Recognize and Celebrate Leadership
- Develop Your Own Leadership & Action Plans

Success: Everyone Leaves With a Robust List of Action Steps

### How to "Be"

Open to Assuming a National Leadership Role in Asthma Control

**Willing to Set Ambitious Goals** 

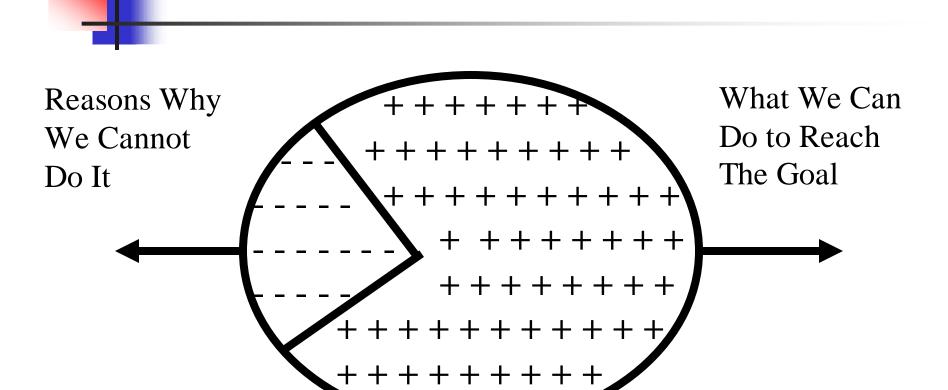

**In Action Making Bold Commitments** 

**Focused on Actions You and Your Organization Can Take** 

**Leaders in Service to One Another** 

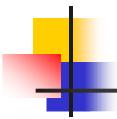

A Source of Positive Net Forward Energy to the Group

# Today Will Be a Great Day

- Keynote by Acting Surgeon General of the USA
- Panel of 2006 Faculty Success Stories
- Panel of 2007 Faculty Success Stories
- Constant Interaction & Discussion to Develop Action Steps
- Breakout Sessions With "Like" Colleagues

Capped by A Celebratory Reception to Appreciate and Support Each Other with Honors, Awards, Speeches & Good Conversation

## Leadership Insights to Guide Us

"We ourselves feel that what we are doing is just a drop in the ocean. But the ocean would be less because of that missing drop."

<u> Mother Teresa</u>

"Alone We Can Do So Little, Together We Can Do So Much"

**Helen Keller**
